PROJECTS

The Prestige Pickleball Society - Court Booking & Operations Platform Jul 2026 - Present

Freelance Client Project | **Live Site:** pickleinprestige.com

- Built and deployed a production platform for a private residential community, supporting court reservations, GCash payment-proof submissions, administrative payment review, rental inventory, QR check-in, credits, and automated notifications.
- Designed a secure Supabase and PostgreSQL backend using row-level security, transactional database functions, audit trails, and concurrency controls to protect financial operations and prevent double bookings.
- *Tech: TypeScript, Next.js, React, Tailwind CSS, Supabase, PostgreSQL, Resend, Vercel*

Ateneo Admissions and Aid Chatbot - *Thesis Capstone Project* July 2025 - November 2025

- Architected the end-to-end pipeline and system integration, connecting a React Vite frontend with a Django backend to enable low-latency communication with the language model.
- Implemented text processing and embedding pipelines using NLTK and Word2Vec, leveraging TF-IDF and ChromaDB to maximize semantic similarity precision for accurate document retrieval.
- *Tech: Python, Django, React, Word2Vec, TF-IDF, ChromaDB, Supabase*

Wingman - A Restaurant Management System January 2025 - May 2025

- Led the end-to-end development of a comprehensive management system integrating inventory tracking, order processing, sales analytics, and staff attendance.
- Architected the cloud database infrastructure using Supabase, implementing secure user authentication and role-based access control (RBAC) to safeguard sensitive operational and staff profile data
- *Tech: Python, Django, React Vite, PostgreSQL, Supabase*

SAMAHAN Palaro 2024-25 Website August 2024 - September 2024

- Designed the initial responsive interface in Figma for SAMAHAN Palaro's deployed 2024–25 event gallery website.

EXPERIENCE

Freelance Full-Stack Developer

Self-Employed - Remote July 2026 - Present

- Design, develop, deploy, and maintain production web applications for clients, translating operational requirements into secure and user-friendly digital workflows.
- Manage the full development lifecycle, including requirements gathering, system architecture, database design, testing, deployment, and ongoing client support.
- *Tech: TypeScript, Next.js, React, Tailwind CSS, Supabase, PostgreSQL, Vercel*

Full Stack Developer Intern Jan 2026 - March 2026

Tech Advise Solutions - Davao City, Philippines

- Led the development and implementation of a proprietary full-stack application, managing the core backend architecture and ensuring seamless system integration.
- Architected a comprehensive system proposal and technical specifications for a separate cross-platform project, designing optimized algorithms to handle data concurrency and variability.
- *Tech: TypeScript, Next.js, React, Tailwind, Python, Django, YOLOv8, WebSockets, Redis, PostgreSQL, Docker*

Backend Development Head July 2025 - May 2026

SAMAHAN Systems Development - Ateneo de Davao University - Davao City, Philippines

- Co-led member onboarding and recruitment, designing technical assessments to evaluate applicant proficiency while conducting training on Git workflows, PR reviews, and conventional commits.
- Established the Backend Documentation & Resource Center, authoring comprehensive technical docs, API references, deployment guides, and database schemas to optimize developer workflows.
- Directing the architecture and development of an ongoing web system for a partner student organization within the university, managing deadlines, task distribution, and backend integration.
- *Tech: TypeScript, NestJS, PostgreSQL, Supabase, Docker, GitHub*

EDUCATION

Ateneo de Davao University July 2022 - June 2026

Bachelor of Science in Information Technology - **Magna Cum Laude** - *Davao City, Philippines*

- **Academic Honors:** President's Lister (3rd & 4th Year), Dean's Lister (2nd Year)

CERTIFICATIONS AND TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Dart, SQL
Backend & Mobile: Django, NestJS, Python Flask, Flutter
Frontend & Design: React (Vite), Next.js, Figma, Canva
Database Systems: Relational (PostgreSQL, MySQL), NoSQL (MongoDB, Firebase), Supabase
Certifications: Cisco Networking Academy — Introduction to Networks, Cisco Certified CyberOps Associate
